Doctry. MUSIC.

Listen to the mighty anthem, Swelling—swelling to the sky; How the harp of nature vibrates

Floating through life's grand cathedral, 'Mong its cloistered pillars high, Waves of music sweetly surging, Fill its wide immensity.

Through the solemn aisles I wander, Press the turf with reverent tread, Gazing up with joy and wonder To the arching roof o'erhead.

Listening to the flow perpetual Of the lapsing stream of song, Warbling birds and murmuring water Swell the tide that floats along.

From the heights and depths around us, Murmurs a low, measured chime, Like the life-sands slowly falling. Through the mighty glass of Time.

Now sweeps in the wind's wild cadence. What a mournful tone it hath! Smiting all the forest harp-strings Stretched upon its trackless path.

And the sea, with billowy anthem, Waketh echoes ever more, As the waves with joyful rushing Dash upon the sounding shore.

He was to be accompanied by Senora Arguellas, Antonia, the young lieutenant, and M. Dupont. The Neptune had brought a cargo of sundries, consisting of hardware, cottons, etc., to Cuba, and was returning about half laden with goods. Amongst these, belonging to the American merchants, were a number of barrels of gun-powder, that had proved unsaleable in Cuba, and which, it was thought, might find a satisfactory market in Jamaica. There was excellent cabin-accommodation on board Captain Starkey's vessel, and as the weather was fine, and the passage promised to be a brief as well as pleasant one-the wind having shifted to the northwest, with the intention, it seemed, of remaining there for

The evening, too, was deliciously bright and clear. The breeze, pronounced by Captain Starkey to be rising to a five or six knot one at sea, only sufficiently stirred the rich and odorous vegetation of the valleys, stretching far away beneath us, gently to fan the heated faces of the party with its grateful perfume, and slightly ripple the winding rivers, rivulets, rather, which everywhere intersect and irrigate the island, and which were now glittering with he myriad splendours of the intense-Branks for sale at this Office at 1 y-lustrous stars that diadem a Cuban race. I do not precisely remember how it came about, or what first led to it, but it was not very long before we' were all conscious that the conversation had assumed a disagreeable- tone. It struck me that possibly M. Dupont did not like the expression of Antonia's face as she curtsied to Captain Starkey. The after-unpleasantness did not, however, arise, ostensibly, from that cause. The commander of the self, were sitting and chatting in a state Neptune had agreed to take several free of hilarious gayety in front of Senor coloured families to Jamaica, where the services of the men, who were reputed out of Santiago de Cuba, in the Eastern to be expert at sugar-cultivation, had been engaged at much higher wages than tilles, and once its chief capital, when could be obtained in Cuba. Indeed, according to the then notions of Cuban Society, no other alternative save the duello appeared possible .-Lieutenant Arguellas hurried at once into the house, and speedily returned with a case of pistols. "Let us proceed," he said in a quick whisper, "to the grove yonder; we shall only b there free from interruption." He took Dupont's arm, and both turned to move off. As they did so, Mr. Desmond, the elder of the American gentlemen, stepped towards Captain Star key, who with recovered calmness, and with his arms folded, was standing by the table, and said : 'I am not entirely, my good sir, a stranger to these affairs. and if I can be of service I shall'-

Cantain Starkey received us with civil indifference, and I noticed that the elaborate sneers which sat upon the countenances of Dupont and the lieutenant did not appear in the slightest legree to ruffle or affect him; but the averted eye and scornful air of Donna Antonia, as she passed with Senora Arquellas towards the cabin, drawing her nantilla tightly round her as she swept by, as if -so I perhaps wrongfully interpreted the action-it would be soiled by contact with a poltroon, visibly touched him-only, however, for a few brief moments. The expression of pain quickly vanished, and his countenance was as cold and stern as before. There was, albeit, it was soon found, a limit to this, it seemed, contemptuous forbearance. Dupont, approaching him, gave his thought audible expression, exclaiming, loud enough for several of the crew to hear, and looking steadily in the captain's face, 'Lache!' He would have turned away, but was arrested by a gripe of steel.

'Ecoutez, monsieur,' said Captain Starkey: 'individually, I hold for nothing whatever you may say; but I am Captain and king in this ship, and I will permit no one to beard me before the crew, and thereby lesson my authority over them. I must have been the veriest dastard alive to have quailed in the presence of-of -that is, in the presence of-circumstances which-in point of fact--that is -- ' Here Captain Starkey blushed and boggled sadly : he was evidently no orator; but whether it was the sly significance of Senot Arguellas's countenance, which just then happened to be turned towards him, or the glance he shrew at the gallery, where Senora Arguellas's grave placidity and Donna Antonia's bright eyes and blushing cheeks encountered him, that so completely put him out, I cannot say; but he continued to stan mer painfully, although the company cheered and laughed with great vehemence and uncommon good humour, in order to give him time. He could not recover himself; and after floundering about through a few more unintelligible sentences, sat down, evidently very hot and uncomfortable, tho' amidst a little hurricane of hearty cheers and hilarious laughter.

I have but a few more words to say. Contain Starkey has been long settled at the Havana; and Donna Antonia has been just as long Mrs. Starkey. Three little Starkers have to my knowledge already come to town, and the captain is altogether a rich and prosperous man; but though apparently permanently domiciled in a foreign country, he is, I am quite satisfied, as true an Englishman, end as loyal a subject of Queen Victoin the Cuban creole's face. ### Intervention Practically Considered

There is not, at the present time, any important national subject, so much discussed as that of intervention. It is heard everywhere, and all sorts of views are expressed in regard to it. The more ardent admirers of Kossu'h hold that this Government should say to Russia, you must not take up arms with Austria against Hungary-it is thusiastic meeting" was literally true of contrary to the laws of nations to do so- the Railroad Meeting at Lebanon, which off, should say, "Mr. Vankee, you mind we had the pleasure of attending last be paid to our protests.

HOOFLAND'S GERMAN BITTERS. These celebrated Bitters prepared by Dr. C.M. Jackson 120 Arch street, Philadelphia are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complain, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of and many others to which "flesh is heir to." There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch street, Philadelphia, of Dr. Jackson, of his agents throughout the country.

Her father goes clad in his russet, And ragged and seedy at that— His coats are all out at the elbow, He wears a most shocking bad hat. He's hoarding and saving his shillings, So carefully day by day, While she on her beaux and poodles, Is throwing them all away.

She lies a-bed in the morning, Till nearly the hour of noon: Then comes down snapping and snarling, Her bair is still in the papers, Remains of her last night's blushes, Before she intended to faint.

She don'ts upon men unshaven. Sie's eloquent over moustaches, They give such a foreign air. She talks of Italian music, And falls in love with the moon, And the' but a mouse should meet her,

Her feet are so very little, Her bands are so very white. Her jewels are so very heavy, And her head is so very light; Her color is made of cosmetics, Though this she never will own.

She sinks away in a swoon.

Her body's made mostly of cotton, Her heart's made wholly of stone She falls in love with a fellow, Who swells with a foreign air-He marries her for her money, She marries him for his hair: One of the very best matches-
